Bollegraaf

BAS-Shredder

Hereby we would like to inform you that we can offer you beside the quick-driving shredder also a series slow-driving shredders. These BAS-shredder exists of two shafts which are turning against each other and are provided with cutting blades/ These shafts are driven by two engines.

Features BAS-Shredder:

- Shredded particle size well defined;
- Suitable for Confidential Shredding;
- No sounds cabin necessarily;
- Constant capacity;
- Small chance on fire;
- Only small dust extraction advised.

Together with the quick-driving shredders Bollegraaf has with these slow-driving shredders a good answer on every wish of the customer.

We would like to show you both installations in practice! For an appointment you can contact our sales department +31 (0)596 654 305.
